# ABOUT US

## A LEGACY OF EXCELLENCE

Founded in Abu Dhabi over four decades ago, Bin Jaber Group Ltd. has established itself as a leading family-owned business conglomerate in the United Arab Emirates. Under the visionary leadership of His Excellency Saeed Saif Bin Jaber Al Suwaidi, the Group has expanded its reach across various sectors, contributing significantly to both the private and public spheres.

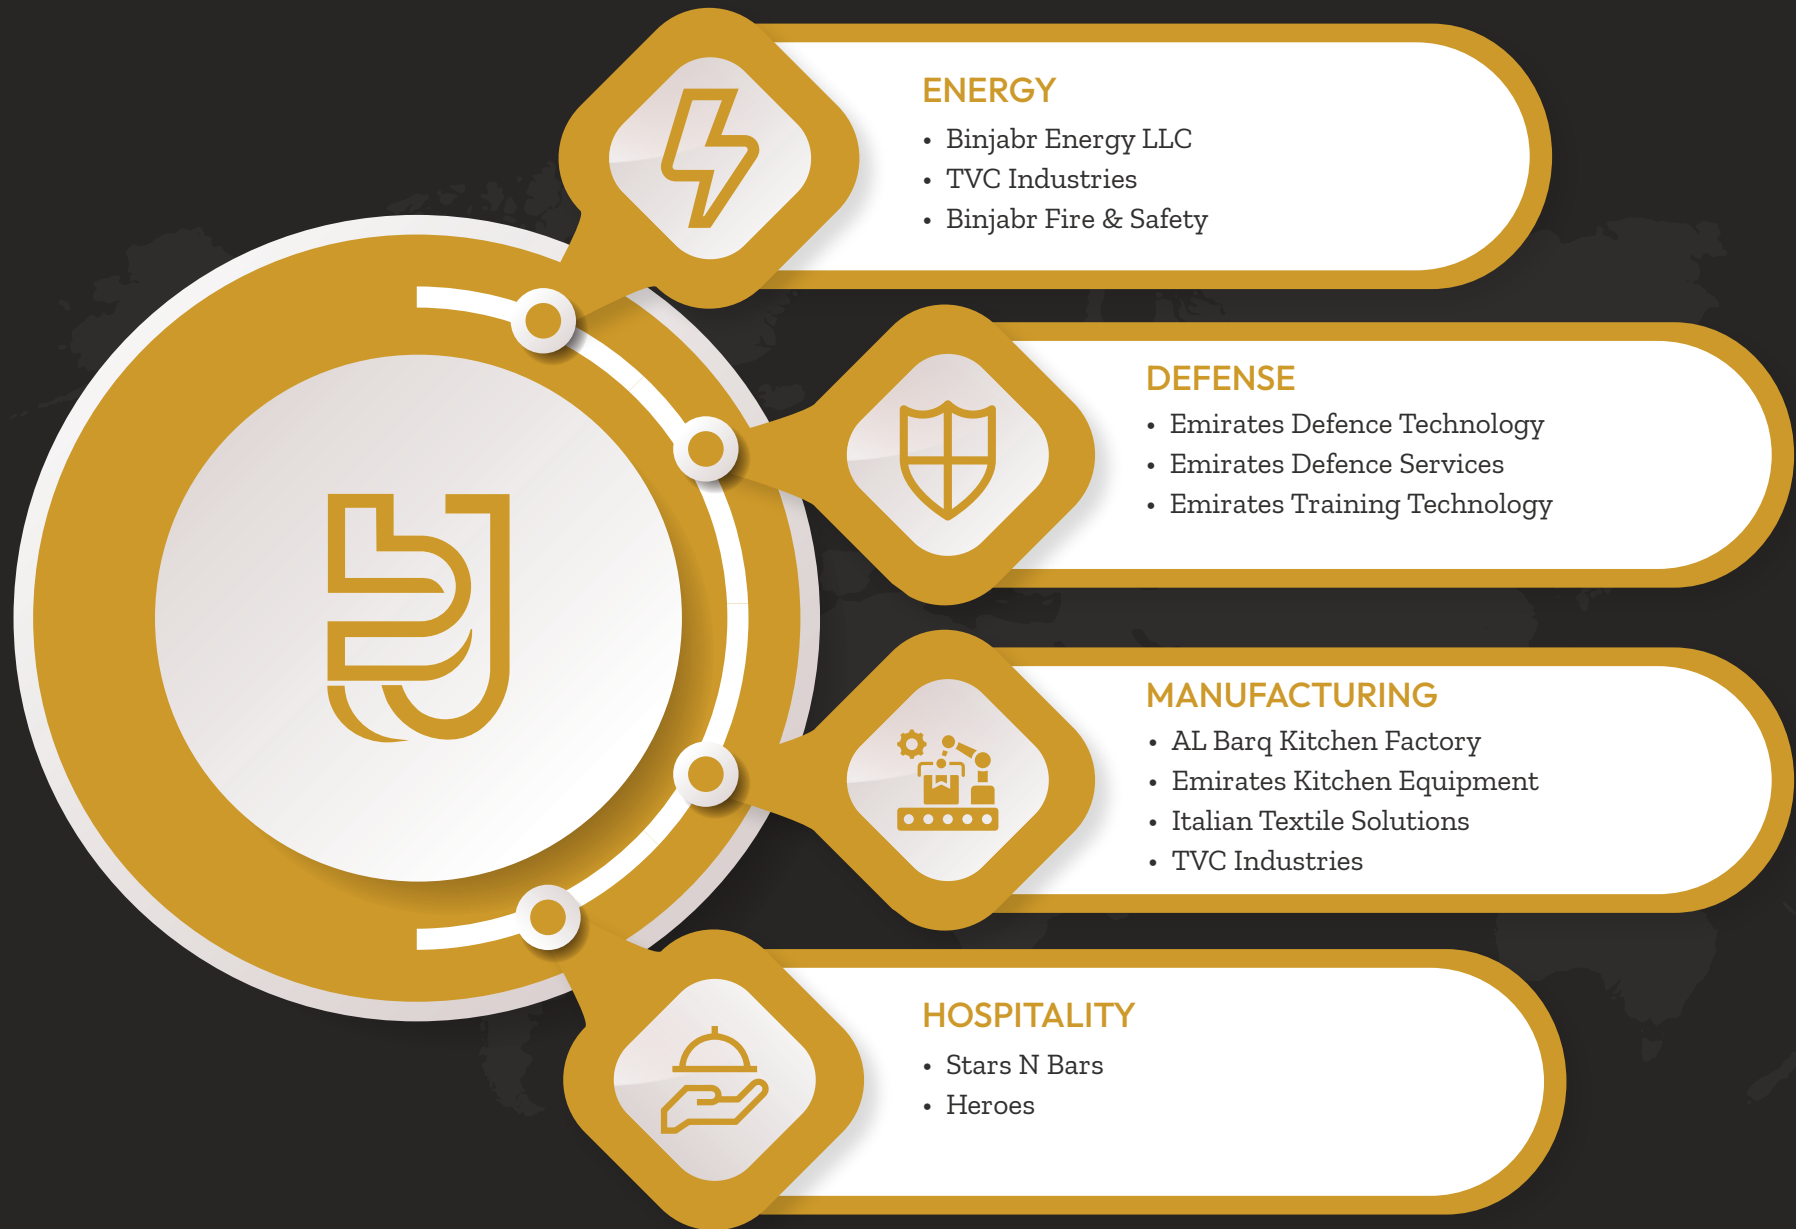

With a diversified portfolio encompassing Energy, Defense, Hospitality, Manufacturing, Construction, Retail, Real Estate, and Investments, Bin Jaber Group caters to the needs of both Private and Government entities. The Group's commitment to strategic partnerships has led to successful joint ventures with world-class companies, fostering long-term collaborations and contributing to the growth of key industries.

# OUR GROUP COMPANIES

CHAIRMAN

## **H.E. SAEED SAIF JABER JUMAA AL SUWAIDI**

His Excellency Saeed Al Suwaidi is one of the founding fathers of the UAE and has been the Chairman of the Bin Jabr Group since 1977. H.E. Saeed Bin Jabr Al Suwaidi is an Emirati industrialist, founder of Nimr Automotives and Aabar Investments. He was born in 1948 in the lineage of one of the most renowned and respected merchant families in the UAE, Abu Dhabi in particular – The Al Suwaidi family of the Bani Yas Tribe.

For the past 40 years, H.E. Saeed Bin Jabr Al Suwaidi has continued to build a sterling reputation within the UAE Military Industry by achieving major partnerships with global military companies such as Thales, BAE Systems, Tatra, Rosoboron export, Ognipol, Hanwha, FFG and Patria.

**HE Saeed Bin Jabr Al Suwaidi is also known for:**

- Initial developer & founder of the Nimr 4x4 and 6x6 vehicles
- First Chairman of the Abu Dhabi Chamber of Commerce and Industry
- Vice Chairman and co founder of Abu Dhabi IDEX

VICE CHAIRMAN

## **JABER BIN JABR AL SUWAIDI**

Jaber Bin Jabr Al Suwaidi serves as the Vice Chairman of Bin Jabr Group one of the largest and most influential family businesses in the UAE. Bin Jabr Group's portfolio of activities includes private and governmental entities in the areas of Energy, Defense, Hospitality, Construction, Manufacturing, Retail, Real Estate and Investments.

In 2012, Jaber joined the family business alongside his father with the objective of diversifying the energy sector of the Group. He serves as Vice Chairman of the energy sector which comprises of Binjabr Energy (formerly General Petroleum Services). and Bin Jabr Fire & Safety Co. In addition, as a key member of the Executive Board, Jaber oversees the overall strategic direction of the Bin Jabr group and upholds the group's position at the forefront of multiple industries.

A strong, determined and entrepreneurial leader, Jaber also has a large personal portfolio of investments throughout the world. Jaber believes in being studious in all aspects of business and is constantly exploring new horizons.

Jaber holds Bachelor of Science in Management, Menlo College, USA

[www.binjabr.com](http://www.binjabr.com)

Binjabr Energy LLC (BJE) formerly General Petroleum Services Co. LLC / GPS was established in 1982 as an independent company, part of the diversified BIN JABR Group Ltd. in Abu Dhabi United Arab Emirates, active in Upstream, Midstream and Downstream fields, with four integrated business units: exploration and production; refining and marketing; petrochemicals; gas, power and water.

With a fast-growing oil and gas portfolio, BJE is a leader in sales & services delivered by seasoned professionals with a wealth of knowledge relevant to the oil and gas sector and was founded based on the philosophy of providing the oil and gas industry with innovative and value-added solutions with high service quality and cost-effective services.

Beside its core line of petroleum services, BJE is known as one of the key local strategic partners of multinational contractors and manufacturers operating within the energy industry in the UAE and GCC Region.

## OUR MISSION

**Our mission is to create value by providing support to customer's operations:**

- Increase oil and gas reserves through successful exploration.
- Having a forward-thinking mindset, at the same time promoting innovative culture and attitude.
- Produce and manage optimally oil and gas fields with adequate IOR/EOR opportunities/strategies.
- Contribute to the development of the human capital of our customers by effective training on the job and
- technology sharing programs.

## OUR VISION

- Confidence in achieving lasting and productive business relations by connecting companies in the UAE and the
- rest of the world.
- BJE has the unique initiative to bring new technologies and creative alliances to enhance the future of Oil and
- Gas Sector in the UAE and GCC Region.

## OUR VALUES

### Our People, Our Strength

- Because safety is our Group's core value, our ambition is applied at all levels. From occupational safety to process
- and transportation safety, it concerns our own employees, as well as those of our partners.
- Our core values are demonstrated everyday by our people: their dedication to perform with integrity; their commitment
- to treating one another with respect; their devotion to operating safely; and their creativity to inspire
- innovative ideas.

## OUR CULTURE

- Beside our strong safety culture, a strong innovation culture is the engine that drives our organization to constantly
- get better, move forward, and innovate.
- At BJE, innovation relates to the application of new ideas, products, or techniques. It pertains to anything that extends
- our ability to access resources that are harder to reach, or to do so more efficiently, effectively and safely.

# ENERGY SECTORS

# UPSTREAM

Operating in the Upstream Sector carries a unique set of considerations and is becoming progressively challenging. The need for unconventional extraction, exploration in ultra-deep waters and working with higher temperatures and pressures requires increasing innovation and new technologies, operational and financial efficiency and strong risk management processes. Such demanding environment led to well integrity challenges. BJE is providing niche solution addressing these challenges aiming to reduce the intervention time and increases recovery.

BJE Upstream Oil and Gas Segment construct, operate and manage wells to deliver the greatest possible ROI with the fastest, safest and smallest operational footprint by providing 24/7 maintenance support to our customers.

# PRODUCTS AND SERVICES

## ROCK & FLUID ANALYSIS

- Multiphysics & Seismic Reservoir Characterization Integrated Services
- Reservoir Laboratories
- 3D rock structure characterization
- Flow Simulation
- Management of other reservoir data, including GIS, well logs RCA and SCAL Ball Valves, Check Valves Air Release Valves Flame Arresters

## DRILLING

- Enhanced Casing Installation (ECI) Systems
- Rig Integrated Rotary Steerable Systems
- Automated Pipe Handler
- Containerized Drilling Rigs
- Faster Mobile Desert Land Rigs
- Wellhead Systems

## DOWNHOLE TOOLS & FLUIDS

- Intelligent Completion isolation packers and Penetrators (ESP Cables)
- Production Chemicals, Drilling Fluids (Bromides)
- Frac Plugs and Dissolvable Frac Plugs & Accessories
- Fishing Tools & Through Tubing Systems
- Whipstock Systems
- Cleanout tools

## WELL SERVICES INTERVENTION

- Reservoir testing & Zero-Flaring Well Test and Cleanout
- Temporary Tie in Early Production
- Membrane Mobile Nitrogen Generation units
- Hydraulic Workover and Snubbing

## MIDSTREAM

Binjabr Energy, as the leading service provider in Midstream sector, we have established a reputation in the industry as a reliable and cost-effective service provider. Our commitment to innovation, technology, brand, and sustainability, drives value for our customers and business partners.

BJE Midstream business provides high-value products and services to customers, supported by a global supply chain and manufacturing network. Our projects across UAE are delivering long-term earnings growth and improved competitiveness.

We remain committed to advance our portfolio to the ever growing market requirement, by exploring every advance technologies and solutions that serves the industries across UAE.

# PRODUCTS AND SERVICES

## PIPING AND PIPELINE

- Multiphysics & Seismic Reservoir Characterization Integrated Services
- Reservoir Laboratories
- 3D rock structure characterization
- Flow Simulation
- Management of other reservoir data, including GIS, well logs
- RCA and SCAL Ball Valves, Check Valves
- Air Release Valves
- Flame Arresters

## PIPING AND PIPELINE EQUIPMENTS

- Pig Launchers & Receivers
- Pipeline Fittings
- Barred Tees
- Sphere Tees
- Strainers

# DOWNSTREAM

For the past three (3) decades operational excellence dwells at the heart of BJE's downstream segment. We rely on our global resources, determination and ingenuity to meet today's complex energy challenges in this sector.

BJE has honed its capabilities partnering along with major manufacturers and deliver the paramount resolutions for the downstream industry, channeling the latest technologies around the globe to UAE.

BJE is instrumental in delivering an optimal value for the downstream developments alongside its valuable Client and business partners.

**BJE IS COMMITTED TO BECOME  
THE INDUSTRY'S LEADING  
DOWNSTREAM BUSINESS ENTITY.**

# PRODUCTS AND SERVICES

## MECHANICAL EQUIPMENTS

- Internal Floating Roofs for Tanks
- Seal System for Floating Roof Tanks
- Geodesic Aluminum Domes
- Single Point Mooring (SPM) System
- Fiberglass Gratings
- Gangways etc.

## FABRICATED EQUIPMENT & SKID MOUN-

- Pressure Vessels
- Shell & Tube Heat Exchangers
- Columns & Reactors
- Cooling Towers
- Air Coolers
- Condensate polishers, filters, demineralizers, lamella clarifiers, Brine Systems

## PROCESS EQUIPMENTS

- Chemical Injection Packages
- Gas Separators & Filters
- Gas Dehydrators
- Flare Packages
- Pressure Regulating Skids

## WATER TREATMENT SYSTEM

- Water Desalination Plants (Vapor Compression Type)
- Waste Heat Units, Vacuum Vapor Compression)
- Water makers (Reverse Osmosis) Seawater Intake System
- Seawater Intake System
- Oil Water Separators
- Multi-Flash Water Makers

اصنع في الإمارات

**MAKE IT IN THE EMIRATES**

**MAKE IT  
IN THE EMIRATES**

# MANUFACTURING

Binjabr Energy, as a pioneering energy solutions provider in the region, has initiated the establishment of a state-of-the-art valve manufacturing facility, "TVC Industries, Abu Dhabi," in collaboration with technology provider TVC, Houston, in the United Arab Emirates. This initiative aligns with the UAE's visionary **"Make it in the Emirates"** program.

## OUR VISION

This project marks a significant leap forward in the region's industrial landscape. The multifaceted facility will embody our mission to combine world-class engineering expertise with cutting-edge technology to produce high-quality valves made in the UAE, supporting the country's drive toward industrial self-reliance and economic diversification.

# KEY HIGHLIGHTS:

**Strategic Location:** The new manufacturing facility will cover a 25,000 sqm area, strategically located in Abu Dhabi, UAE, serving as a hub for both regional and global markets.

**Capabilities:** The factory will produce various types of API valves, up to 5,000 valves per month, with sizes ranging from 2" to 48" within six months of its establishment.

**Innovation & Quality:** Leveraging TVC's extensive experience and Binjabr Energy's deep market insights, the factory will deliver top-tier API 6A & 6D valves that meet the most stringent international standards.

**Empowering Local Talent:** As part of our commitment to the "Make it in the Emirates" initiative, the venture will focus on local resource utilization and workforce development, offering extensive training and employment opportunities to UAE nationals.

**Sustainability:** The factory will adhere to the highest environmental standards, incorporating sustainable practices in line with the UAE's green growth strategy.

# ENVIRONMENTAL

## ZERO FLARING SOLUTIONS

Binjabr Energy Zero-flaring packages provide the ultimate solution to the zero discharge program with temporary composite pipelines and the mobile wellhead gas compression unit to achieve 100% zero-flaring of non-connected wells for the first time ever in the Middle East Oil & Gas sector.

### FEATURES

- Option to easy use installation methods such as trenching, plowing
- Resists up to 100,00 PPM H<sub>2</sub>S and 100% CO<sub>2</sub>
- Liquid flow rate is 10,000 BBL/day assuming 100 psi pressure drop for 4' pipe and one mile of pipe length, with fresh water at 30°C (86°F).
- Gas flowrate is 16 mmscf/day assuming 100 psi pressure drop for 4" of pipe and one mile of pipe length, with methane at 20°C (68°F).

### BENEFITS OF ZERO EMISSION TECHNOLOGY

- Reduce the emission as part of COP28 objectives.
- HSE impact / Environmental protection.
- Save the flared hydrocarbon gas, condensate & oil Revenue.
- Production testing of low WHFP wells & Appraisal wells.
- Accelerating the Kick-off activities.
- Improving the wells availability & Improve the Inactive string KPI.

**MAINTENANCE**

# MAINTENANCE

To effectively manage your assets, you need to have a maintenance management system which determines your maintenance objectives, strategies, and the allocation of resources and responsibilities to implement them.

Binjabr Energy LLC, have multi-skilled teams who perform a wide range of added-value and essential tasks in complex offshore environments to provide our clients with innovative and cost-effective services, products and solutions, while maintaining the highest focus on safety and environmental issues.

Our deep experience in working on our customers' high-value critical assets in some of the most challenging and remote locations on the planet ensures we are a vendor of choice for international oil majors, national oil companies and oilfield services companies operating in the

**Binjabr Energy performs the following services for its clients, both in the Oil & Gas industry and a range of other land-based industries:**

- Establishment of maintenance strategies with goals and schedule of actions
- Design and improvement of preventive maintenance programmes
- Definition of spare parts needs and their optimization
- Provision of training for maintenance scheduling, execution and reporting
- Training of operators and leaders to comply with maintenance management processes
- Analysis of the maintenance process and recommendation of improvements where necessary.

**BJE provides Maintenance and repair of Oil and Gas field producing, processing, storage, export and refining facilities and construction of additions or modifications of those facilities.**

- Maintaining the Plant Compressors
- Repairing Oil Heaters
- Maintaining and repairing Plant Generators
- Supplying Oil Field Equipment and Materials
- Supplying Certified Spare Parts

A detailed illustration of a large industrial refinery or petrochemical plant at sunset. The scene is filled with complex piping, multiple levels of walkways, and several tall distillation columns. Some columns have yellow flames or fire at their bases. The sky is a mix of orange, pink, and blue, with some clouds. The overall tone is industrial and dramatic.

BJFS

BIN JABR FIRE & SAFETY CO

BIN JABR FIRE & SAFETY CO

Binjabr Fire & Safety (BJFS) a division of BJE, are specialized in the field of Fire detection & Protection systems, Safety & Security Devices.

For over three decades the company has established its local reputation through its sophisticated knowledge of the market condition. BJFS provides an unrivaled level of services and ensure all of its products meet international standards and quality in the field of Fire Detection & Protection and Safety / Security, the establishment has acquired intimate knowledge of the local market conditions and of the local laws.

BJFS offers sales, and after sales services of various safety and security products. BJFS is certified with ISO 9001:2015, ISO 14001:2015 and OHSAS 45001:2018.

# PRODUCTS AND SERVICES

## FIRE

- Fire & Gas Detection Systems
- Fire Extinguishers (Supply & Refilling) & Cabinets
- Fire Monitors & Fire Hoses
- Fire Hydrants & Valves
- Fire Pumps & Fire Sprinklers
